Did you see our new tempo COWBOY & INDIAN MODEL SETS?

Forts - Wild West townships - Indian villages - Wagons - Stagecoaches and loose individual cowboys and indians standing or riding. These are tremendously popular with the children and will keep them amused for hours at a stretch.

Have a look in our window - lay by for Xmas (ONLY 7 WEEKS TO GO).

XMAS CARDS are selling Rapidly! Collected all yours yet??

Did you see the FLARED SAILOR JEANS last week? More in this week BUT in scrub Denim - Really way-out.

GIRLS - Have you seen our new PEPPER PANTS? They are just 2 triangles of material joined with straps. Micro is the word. \$1.25 is the price, Earnshaws is the place to see them.

### GREEN THUMB

Now is an excellent time for planting all container grown trees & shrubs, particularly the tropical & sub-tropical ones which establish best in warm weather, in dry weather they need regular watering. Trees such as Jacarandas, Brythrinas (Coral trees), citrus fruits & many shrubs e.g., Hibiscus, Fiddlewoods, Poinsettia and most others including many of our native shrubs can all be planted now. When planting do not use fertiliser. It is best to wait for a month or 2 before applying fertilisers as they tend to burn newly planted plants. The best to use are the complete fertilisers, e.g. blood & bone, gro-well or complete liquid fertilisers e.g. aquasol or thrive. If planting in a lwan, keep the grass clear of the tree or shrub for the first 2 yrs until it is well established. A small amount - say a handful of fertiliser each month in warm weather & well watered in, promotes rapid healthy growth.

Lawns need regular cutting now and would benefit from 2 or 3 light applications of fertiliser through the summer to keep them green & healthy. Always water well after feeding. If lawn cuttings are free of seed, they make excellent mulch which saves water, smothers weeds & improves the soil as it rots down.

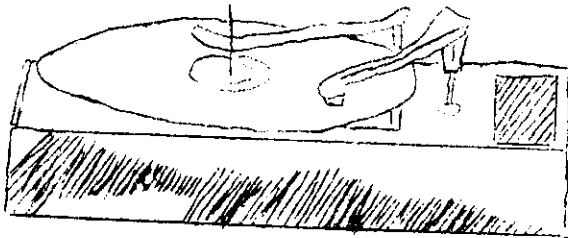

All fruit trees, particularly citrus, appreciate regular feeding & efforts will be rewarded by higher yields. Suitable fertilisers are blood & bone, superphosphate & sulphate of ammonia or complete mineral mix or mixtures of these. It is best to give several small applications rather than one large one. For an established tree, 1 lb every 6 or 8 weeks would be most beneficial.

Roses should have all dead flowers removed & other shrubs can be cut back or trimmed if necessary. (After flowering is the best time for most shrubs). Many large straggly Oleanders would be best cut off near the ground to encourage young vigorous growth which rapidly forms a bushy shrub. Hibiscus can be pruned now especially if spindly. This helps thicken them up & they flower better.

KINDERGARTEN ENROLMENT 1974  
\*\*\*\*\*

If you wish to enroll your child for  
Kindergarten for 1974 would you do  
so as soon as possible.

The afternoon group comprises of  
children who will be ready for school  
the following year. However, num-  
bers are limited as this is neces-  
sarily a smaller group. It does not  
follow that all children in this age  
group will be admitted to the after-  
noon session. Preference will be  
given to those children already  
attending in A.M. Parents should  
contact me before sending a child in  
P.M.

Parents of children already attend-  
ing in A.M. will be notified person-  
ally if he or she is to transfer to  
the afternoon group.

### "THE COOL DRINK CAN CRISIS"

\*\*\*\*\*

One of the benefits of living in this modern age is the convenience of canned food and drink.

On a hot, thirst provoking day an icy cold can of drink is great!

BUT these cans become a menace once emptied - they are strewn from one end of the town to the other - even dropped around rubbish bins.

All of us enjoy living in a pollution free atmosphere and each should do his share to ensure that our surroundings are not spoiled by carelessness. It's not so hard to walk an extra few yards to the rubbish bin and one person can set an example to many.

So much has been written and broadcast in recent times about ecology, pollution and the state of our cities, towns and countryside that a total awareness of this crisis should exist.

It is up to everyone to protect our heritage - you may think "what does one can matter", but if 13 million people had the same thought, that's a huge pile of cans lying around!

### October Report

United Nations Day was observed at the meeting held on 25th Oct., the 23 members present answered the Roll-call with countries belonging to the United Nations.

The competitions for the month brought a good response, these being:

- (a) 9 small cakes
- (b) a souvenir teatowel

The cakes provided us with supper after the meeting. A colourful and interesting display of teatowels made voting a difficult task.

Pennies for friendship were given during supper. The Clown Raffle was drawn and won by Mrs J REID.
