Letter to the Editress:

Dear Madam,

I am a regular picture goer at our local theatre and I would like to pass on my complaint regarding the very annoying habit that some of our young people seem to be developing of repeatedly going in and out of the theatre during the show. It is very difficult to enjoy the picture when the "stream of traffic" is so consistent. Another very bad part of this movement is that a large majority hang around the Foyer where they sit on the floor, on the steps and generally give a very bad appearance and impression to people passing by. The usherettes do a good job, but can we, as Parents, have a talk to our own children about this problem? (FILM LOVER)

VETERINARY SURGEON

N.P.W.L.S. HUNTING PERMITS

The LC Post Office is now in a position to issue NPWLS Hunting Permits "On the spot". In the past, only application forms were available from the PO but they can now receive Permit fees and issue the permit immediately.

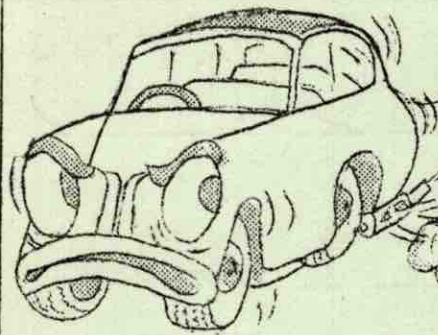

Class 1 permits, to hunt unprotected animals are \$5 and Class 2 permits (to hunt protected animals during an open seas- i.e. ducks), are \$10.

Persons with a Class 1 who want to transfer to Class 2 still have to send the extra \$5 and their existing permit to NPWLS Head Office in Adelaide (GPO Box 1782).

Written Permission For Hunting. - It's pretty clear that a lot of people are still confused about when written permission is needed to hunt. ALL areas around Leigh Creek and further north are pastoral leases, and they are regarded as private land as far as hunting is concerned. Therefore, written permission is necessary in practically every case. This includes places like Kopperamanna and the Cooper crossing generally, Innamincka and the lakes and waterholes in that area. Failure to obtain written permission can result in a prosecution so if in doubt GET PERMISSION. I can tell you whether or not permission is required, if you are in doubt.

Places such as the Beltana Common, although not a pastoral lease of course, is regarded as private land as far as hunting is concerned. In that particular case, it is under the control of the Lands Department.

LETTERS TO THE EDITRESS:

Dear Editress,

I wish to correct a wong impression created by a letter from F.N.D.A. to Senator Jessop and published in Topics (4/ 2/77).

The letter stated "with stagnation we talk of the local telephone services, the only twenty four hours service in this area is Leigh Creek". It then goes on to list the official hours of other exchanges.

It is rather tiresome to continually read what some claim to be the bad news and have them continually overlook the good news.

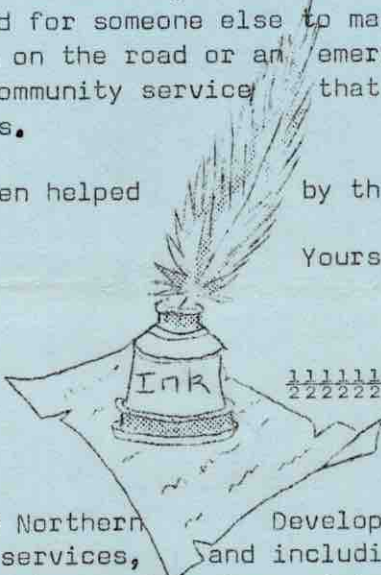

We have been at Beltana for seven years and the Beltana exchange has never once been left unattended. We are only paid for our official hours 9.am to 8.pm - Monday to Friday and 9.am to 1.pm Saturday. However, we have made sure that our exchange is always attended. We live on the premises and on the occasions, such as Don Dunstan's visit, when we were all engaged elsewhere, we arranged for someone else to man the exchange. We feel that if there is an accident or breakdown on the road or an emergency on a station having the phone available is an important community service that we are able to offer. No opening fee is charged for emergency calls.

Many of your readers will have been helped by this voluntary service.

Yours sincerely,

IVAN HULL

Dear Mrs Rappold,

In reply to the letter by the Far Northern Development Association recently published in "Topics" regarding government services, and including Pagas Airlines. We would like to advise Mr Mengersen, and those who may have been misled by his comments of certain facts relating to Pagas Airlines operations:-

My, my, Mr Mengersen! What a perverse way to "develop the far North". Sling off and ridicule a private enterprise Airline Company in its endeavour to rehabilitate Leigh Creek's once weekly Fokker service to a regular daily service in a sophisticated twin engined, all weather aircraft. PAGAS don't promote a chicken and champagne armchair ride to Adelaide, but rain, hail or 45° shine we call on Port Augusta and Leigh Creek daily, to provide you with a two hour connection to Adelaide.

PAGAS is not a government service. Neither State nor Federal government assistance is available to lessen costs in this region, in fact we pay very highly to the government through Airport and Air Route charges, not to mention fuel taxes.

Why not support your airline and lets iron out any genuine problems of discomfort or inconvenience to improve the service. Ocker knocking won't develop the far North.

VERA CONSIDINE
DIRECTOR, PAGAS AIRLINES
