Points to remember when using your stove. These are published in the interest of your safety.

#### REMEMBER

The majority of stove fires are caused by human error - take care that elements are switched off after use or the correct element is switched on.

Adjust your stove or hotplate to the right temperature and be aware at all times of what you have left cooking.

#### PROCEDURE IN CASE OF FIRE

##### Top of Stove - Burning Fat or Oil:

Switch off power at stove or switchboard.

Push burning article to one side of hotplate - do not attempt to remove burning article from stove.

Do not use water to extinguish fat or oil fires.

If it is out of your control ring a fire alarm or report it to the Post Office Exchange. The Emergency number is 199.

##### Oven Fire:

Switch off power at stove or switchboard.

"Received a fatal electric shock when attempting to remove the flexible lead of the electric lawn mower which had become jammed in the blades. The general purpose outlet to which the mower was connected was faulty. The switch was wired in the neutral & the contacts were in a closed position, irrespective of whether the toggle was ON or OFF. The deceased apparently switched the general purpose outlet to the OFF position and then attempted to remove the flexible lead from the blades of the mower."

A very bewildered mother watched her young Son butter two pieces of bread, carefully place all the bones left on the plates onto one piece, then very gently close the sandwich. Unable to contain herself any longer, Mother remarked. "What on earth are you doing". "I'm only making Kylie a sandwich" was the reply. Kylie is the family dog!???

Mr B C FREAK - District Manager for General Accident Group Assurance Co. Ltd., will be visiting Leigh Creek on 1 and 2 May.

Happy 21st Birthday to Mr RON KEHR who celebrates his birthday on the 13th May.

Well! here we go again. 15/4/72  
We had the Blacks thrash the Blues  
the Greens & Orange, a controver-  
sial draw and Demons narrowly  
defeating the Reds. Which one  
will we look at first? - Lets take  
them as they read above.

Blues, I never said many nice things  
about you last issue and I am sorry  
to say I can't say many this time, BUT,  
I did think that you played a lot bet-  
ter, although the scores didn't say  
this. Where did you go wrong? You  
had girls like Judy Hickey going well,  
Leonie Ward always doing good things,  
your defence was sound, but not many  
goals on the board, so I will leave  
this one for the coach to work out.  
The Blacks look good, although as I  
have said earlier, the Blues played  
well, the big winning factor was that  
Blacks popped that lump of leather  
through the hoop, hence a very con-  
vincing win. I think that the differ-  
ence between these two teams on the  
day was that the Blacks had the "will  
to win" where-as the Blues did not.

Next one coming up is the draw between  
Orange & Greens. What can you say a-  
bout a draw except that it was a hard  
slogging game with one quarter to the  
Greens and the next quarter to the  
Orange. Each had their turn of having  
their nose in front. I said last issue  
that the Greens were good and I also  
remarked the same about the Orange,  
this draw only goes to prove that I  
know what I'm talking about.

It was noticeable in this game that  
"Lonesome" Fuchs was not so lonesome  
this time as she had a couple of  
Orange girls bouncing on her.  
One to think about over this draw and  
that is that the Umpires decision is  
final.

Now for the last, but not least game,  
Demons V Matadors.

This game was anyone's right up until  
the last quarter (and I said last  
week that the Demons ran out of puff).  
Still it was just the opposite this  
game because they ran over the top of  
the Reds and slammed home enough goals  
to take them past the post at the fi-  
nal bell. There was very little bet-  
ween these teams and it was only  
through some good goal shooting that  
brought home the bacon to the Mauves.  
Val! you must have had an early night,  
did you?

Last week I never touched on the um-  
piring, but I am going to this week.  
I thought that Umpire Reid in the  
Drawn game, did not protect the girl  
going for the ball enough and hence  
things got a little "hands, knees &  
BOOMSA daisy", then again in the  
Demons v Reds. As for the supposedly  
"ACE" umpire Hatch, I thought that he  
missed a lot - buck up lad!

expectation and showed that they  
are still a team to be watched. I  
thought that the game was a bit on  
the bullocking side with just that  
little too much play on those side  
lines. Both Bev Taylor and Loraine  
Walford held their ends well. Reds,  
I was very happy to see that you  
had taken my advice and dropped that  
"two man" team from existance. Um-  
pire JIM held the game much better  
this week which was a good thing as  
I noticed quite a few tempers get-  
ting out of control. Remember girls,  
the game is there to be played as a  
sport, not as a "free-for-all".  
Moving over to the Blue and Orange.  
ROSALIE old sport, "The Windbag WAS  
watching", you really didn't think  
that I would miss your big win did  
you?.. Blues this was just what I  
had been waiting for, that real team  
effort when every girl was determined  
to win. A little bit of 'stirring'  
doesn't hurt sometimes!! Coach: -  
"Congratulations". Orange, - let  
down very badly in that goal circle.  
Certainly not the same team that I  
watched on that opening day. Umpire  
Fry - you were very nervous and at  
times slightly confused, but remem-  
ber, everyone has to start somewhere,  
so stick to it.  
Coach Henty-Smith, give your girls  
the same brand of pep pills for  
their next game.

Well the mighty Magpies, hit the  
dust. I thought by the actions of  
those Mauve girls at the end of the  
game, that they had just won their  
first premiership - maybe this year  
girls. This game was certainly the  
match of the day with both teams  
very determined to win. Blacks, you  
had one move in the goal ring which  
may very well have won you the game  
but you let it slip through your  
little fingers. What the rest of  
you teams have to remember with  
these Demons is, that during the  
week they have no team practice  
what-so-ever - all the more reason  
to say Congratulations to them for  
their effort so far this year -  
stick to it. Team work was good,  
but at times that Ball went rather  
wild - it always pays to look be-  
fore you leap.

I thought the umpire was a little  
too long with her timing in shooting  
for goals(3 seconds - I THINK).

My tips for the next game!

Pirates to beat Dodgers because of  
their more accurate goal shooting.  
Blues have tasted the winning side  
of things and like it, so I will go  
for them against the Reds. (This  
game will be very close). The match  
of the day will be the Greens & the  
Demons, but I think the Greens will  
be more solid in defence and a trifle  
more accurate in the goal circle.
