FAR NORTHERN DEVELOPMENT ASSOCIATION

F.N.D.A. Meeting 19 June 1972

At a committee meeting of the above on 19 June 1972, the Flinders Ranges Planning Area Development Plan was discussed and we wish the following points to be considered:-

1. The official inspection group due to visit the area during July 1972 allow sufficient time for as many as possible informal discussions with residents and representative groups of the area.
2. No doubt a body of people will be set up to control the area, it is this committee's desire that such a body have equal representation of local residents as with mining, pastoral and tourist interest.
3. If Port Augusta were removed from the plan, management of the plan would be greatly simplified.
4. It is our opinion that Hawker should be the central point.
5. From what we have had confirmed reports, Local Govt. in this area, unless the system is made realistic to values gained, would only increase costs to the land holder with virtually no benefits.
6. With areas classified as non-grazing, thought should be given as to whether controlled grazing would result in the better over-all control of vermin.
7. If non-grazing in some areas is decided on, what form of compensation will be made to the land holder:-
 - (a) Rearrangement of leases.
 - (b) In the case of through non-grazing of certain areas a holding becomes too small for economical operation will the lease be purchased as a whole.
8. In the case of non-grazing restrictions being applied within a holding what arrangements are anticipated with regard to the eradication of vermin.
9. At present we have Wilpena, Arkaroola and a more recent camping area, South of Wilpena what safe-guards are there for the future, with regard to the number of straight tourist organisations setting up business in the area.
10. We feel that Copley with the necessary facilities, that is power and water in an ideal location for large scale tourist development. The plan on display at Leigh Creek on 16 June 1972, neither showed or made mention of Copley.
At present there are tourist facilities in and adjacent to Copley, there are none as such at Leigh Creek.
11. What compensation is allowed for camping areas within leases.
 - (a) How or who will maintain these areas.
 - (b) Will the land holder be expected to maintain them.
 - (c) If 'B' what payment can be expected for this service.

*The Rat
of
The Week.*

There must be a pet hater in Leigh Creek because this week's R.O.T.W. is the person(s) responsible for a Fishhook through the side of a pet cat's mouth.

Do you know that science has crossed a potato with a sponge? It tastes terrible, but is sure holds a lot of gravy.

Every man grows old except in his imagination.

C.W.A.

The format of the July meeting was different from the usual in that Dr. Deerlove, an officer of the Public Health Department from Port Augusta, showed us films on health and nutrition. She and her party joined members for supper, at the conclusion of an interesting evening.

"THEY"

It's a wonderful thing to sit at the place where the sages and experts sit -

To refer to the rest of the world as "they"

And to judge with infallible wit.

"They" ought to do this and "they" ought to do that

And "they" ought to get cracking today.

It's as plain as the end of the nose on your face -

Providing you're "them" and not "they!"

It's funny how "them" just never seem wrong and "they" have never seemed right".

And funny how those who are "they" become "them"

Just as soon as they're the ones in the fight.
