" US. "

Editorials! These appear in the daily press, in "Topics" and in almost every publication throughout the world.

They each bear the stamp of an individual. Whether they be the explanation of a theme, an idea, a belief or just a whim - they tend to be individualistic. No two peas are exactly alike. No two people are exactly alike. Even identical twins can have vastly different natures.

Whereas a machine can turn out large numbers of identical units, alike in every detail, they are inanimate objects without thought or reasoning. The human element is missing. It is not US. The modern age with its mass-production, automation and tendency to subjugate individualism must turn to something different.

In the past the trend was to respond to WHAT others did and never to go deep enough into the situation to find out WHY they did it. During the last two decades Industry has been more and more concerned over the thoughts of its employees: their reactions to various environments - social, industrial and political. As yet the answer is not obvious. Perhaps it is in those two letters, US.

It may only be coincidental, but they are coupled together in U.S.A., RUSSIA, MUST, and, what is more, in TRUST.

However, Trust is a thing that can neither be sought nor given at a moment's notice, but over a period of time, when by actions, by words and by our individual efforts, the improved new model of Human Relationships will bear the brand, "Manufactured by US."

NOTE: Being in the nature of an Editorial this subject may have received a totally different treatment by a different individual.

Produced below is a short poem from the collected verse of Edgar A. Guest:

"WHEN YOU KNOW A FELLOW."

When you get to know a fellow, know his joys and know his cares,
When you've come to understand him and the burdens that he bears,
When you've learned the fight he's making and the troubles in his way,
Then you find that he is different than you thought him yesterday.
You find his faults are trivial and there's not so much to blame
In the brother that you jeered at when you only knew his name.

You are quick to see the blemish in the distant neighbour's style,
You can point to all his errors and may sneer at him the while,
And your prejudices fatten and your hates more violent grow
As you talk about the failures of the man you do not know.
But when drawn a little closer, and your hands and shoulders touch,
You find the traits you hated really don't amount to much.

TROPHIES.

What is the world's most valuable
trophy for a horse race and what
racing club awards it?

If you said the Kentucky Derby
prize or the trophy given to the
winner of the English Grand National
you'd be wrong.

The world's richest trophy for a
horse race is given by the racing
club at Marree - in the far north of
South Australia.

At the annual Queen's Birthday
holiday meeting in June the princi-
pal race of the day is the Marree
"Cup". The actual trophy given to
the winning owner is worth approx.
£1,000. Other prizes for the rich
event bring his total winnings to
around the £2,500 mark.

NEWS: The Annual Ladies' Guild
Fete was a great success. Those
who worked so willingly will be
glad to know that we exceeded last
year's record. To date the pro-
ceeds are £63. We take this op-
portunity to thank all those folk
who supported us. This effort
would not have been possible
apart from the assistance of the
townsfolk who baked and sewed that
our target might be reached.

On Sunday many car-loads of
happy children and parents made
their annual pilgrimage to Blin-
man for the Blinman Sunday School
Anniversary. We had a picnic and
spent some time in the Parachilna
Gorge, and then went on to Ser-
vice. The Sunday School at Blin-
man wishes us to thank all those
who came. Apart from the crowds
that go from Leigh Creek the ann-
iversary would not be the stimu-
lation that it is.

to those who hate you, bless those
who curse you, pray for those who a-
buse you."

DID YOU KNOW...

The Moslem religion was founded
more than 13 centuries ago, and has
now spread to nearly every country
in the world. It has no clergy, no
pontiff, and scant liturgy. At first
it met with strong opposition, but
to-day Islam has an estimated 370-
million adherents.....

During the last war the British Ar-
my used as an ammunition dump a tiny
chapel on a bridge over the Avon Ri-
ver. It was built 260 years ago so
that passers-by might pray for the
soul of the bridge-builder. Somewhat
incongruously, it has also been used
as a police lock-up and as a tool-
house

--- MARREE NEWS ---

Work has commenced on the construction of buildings at the new aboriginal reserve, located on the east side of the town. Five residences are to be built.

The new Progress Association committee, headed by chairman Wally Gibson and secretary Mrs. Sykes, are making a good effort to provide the locals with some variation in the social life. The social evenings held every second Friday have proved very successful to date. Plans are in hand for a community Guy Fawkes celebration and also a Gymkhana to be held in November. The date for the Gymkhana has not yet been set.

The committee is to meet representatives of the Water Supply and Railways Departments shortly in connection with the supply of water for the township. There is a possibility that the Mines Department at present putting down a new bore at Well Creek on the Birdsville stock route, will also put down a new bore in the town area to supplement the rather shaky supply we have at present.

Local tennis players visited Mulcorina on Sunday and had a very enjoyable time. Elliot Price informed me that another house is to be built shortly for the use of his son, Keith, and family.

On the road home the front wheel of Brian John's car went bush. Luckily no one was hurt and the mishap occurred only four miles from home. Stan Buck was the latest recruit to join the long-distance walkers' club.

The Hospital Picnic Race Meeting on October 6-8 promises to be better than ever. Chairman Alec Rabig says that nominations are well up to previous standards, and that the trophies should be even better this time.

"" FROM BLINMAN ""

At the C.W.A. Social Evening on Monday, September 24th, Mrs. Butcher, the local President, welcomed State and Group Officers Mrs. Dolling, Mrs. Hall, Miss Blinman and Mrs. Badcock. Entertaining items were given by Mrs. Smith & Mrs. Martin, both of Moolooloo. Visitors each spoke on C.W.A. matters and a delicious supper prepared by excellent Blinman cooks was enjoyed. The visitors were each presented with a small box of home-baked biscuits.

.....

Mr. Butcher's recent visitors included the Deputy Commissioner, Mr. McKinna, Mr. Allan of Beltana, Sgt. Cunningham of Stirling West, Prof. Cleland and Mr. Bartlett of the Aboriginal Department. Also Mr. & Mrs. J. Carling, of Bruce.

.....

We were pleased to meet Mrs. Court who was here on a recent tour. Mrs. Court told us that her father, Mr. James Hebbard was a Mining Inspector at Blinman in 1887, and had had his family there with him. Mrs. Court promised to look up a photograph of the hotel licensee at that time sitting at the front of the hotel in a goat-cart.

.....

Recent hotel visitors included Mr. & Mrs. Brian Tansell, who spent part of their honeymoon at Blinman.

Mrs. Brittain of Melbourne celebrated her 82nd birthday whilst on a tour. Mrs. Birrell made a cake, and a picnic and barbeque were arranged as entertainments in honour of Mrs. Brittain, who actively enjoyed these lively outings. To one of the ladies in her fifties who had an aching back, Mrs. Brittain said, "Leave it, Child. I'll make it!" And she did!

.....

School teacher Miss Kipling is on leave following surgery at Port Augusta Hospital. The school Committee are very grateful to Mrs. Don Carter, who is acting as temporary teacher, as the school would have to have been closed.

.....

The Sunday School Anniversary was well-attended and parents and children came from Leigh Creek to enjoy the children's singing. Book prizes were awarded at the service, and special prizes were given to Elizabeth Kipling and Robin McIntosh.
